

DHANUSH KRISHNA

GAME DESIGNER

SOLO GAMES

LFG

DYING LIGHT 2 - STAY HUMAN (MOD)

GAME / MISSION / LEVEL DESIGNER / DIRECTOR

2025

- Designed an open-world map with an engaging single-player, story mission with my signature style of cinematic flair
- Designed missions for sandbox gameplay empowering player agency for emergent gameplay & fun replay value
- Focused on reuse of layouts by utilizing different systems and tech as a proof of concept for cost-efficient production
- Directed engaging cutscenes for a fun and memorable three act story that propels parkour & stealth gameplay
- Acclaimed & featured as a Best map by the devs, LFG has over 40,000 players and is a part of their Live-service events

RUN BOY RUN

DYING LIGHT (MOD)

GAME / MISSION / LEVEL DESIGNER

2018

- Designed an open-world, mission aimed at elevating parkour gameplay using a proprietary game engine
- Created engaging in-game cinematics and cutscenes using custom movie tools
- Has a Five-star gamer rating on steam workshop with over 15,000 players and over 660 positive votes
- Acclaimed as "Mod of the Week" on all official Dying Light social media pages in February 2019

CHAIN REACTION

2D GAME

TECHNICAL DESIGNER

2018

- Analyzed and reverse-engineered the core mechanics of the famous android game "Chain Reaction."
- Designed and scripted modular systems critical for the gameplay
- Designed intuitive user interface for the overall user experience and ease of use of the app
- Created a gamified tutorial to quickly teach the rules of the game to players

PROFESSIONAL EXPERIENCE

RIPPLE EFFECT STUDIOS (Los Angeles, CA)

BATTLEFIELD 6

LEVEL DESIGNER II

2025 - PRESENT

LEVEL DESIGNER

2024 - 2025

- Inherited, iterated and designed several regions of the open world for a fun, sandbox Battlefield BR experience
- Built relations with other disciplines to pitch, communicate and develop design philosophies to enhance the fun factor
- Pitched and collaborated to developing efficient design pipelines for smooth iteration cycles during production

RESPAWN ENTERTAINMENT

STAR WARS FPS

GAME / MISSION / LEVEL DESIGNER (Vancouver, BC - 3 years)

2019 - 2024

- I was a part of this single-player, narrative driven, first-person shooter game since incubation
- Pitched, prototyped, iterated, and explored several fun player mechanics and levels we call "Action Blocks"
- Pitched, and built missions, levels, scripted mechanic-driven gameplay and action set pieces with epic cinematic flair
- Constantly collaborated with artists, engineers, writers to align with my vision of the gameplay experience
- Experiences were praised by both the development team and LucasFilm for high-octane, action-packed & iconic values

MISSION DESIGNER (Los Angeles, CA - 1 year)

MEDAL OF HONOR ABOVE & BEYOND

- Scripted, maintained, and iterated on the gameplay experience of multiple main story missions
- Iterated on combat pacing, encounters, and multiple action set pieces using different tools in the Unreal engine
- Collaborated with different disciplines to integrate, iterate, and maintain story critical cutscenes
- Pitched, scripted, and iterated an interactive "VR Comfort settings" tutorial for a smooth onboarding experience

SURVIOS (Los Angeles, CA)

THE WALKING DEAD ONSLAUGHT

ASSOCIATE TECHNICAL DESIGNER

2019

- Scripted, maintained, and iterated several missions from block-out to alpha through interdisciplinary collaboration
- Designed modular, game-wide systems using Unreal Blueprints supporting single-player and co-op game modes
- Iterated on combat pacing, encounters, and created action set pieces scripted via proprietary quest tools

GROOVE JONES (Dallas, TX)

QB CHALLENGE '19 & VR TRAINING SIM

TECHNICAL DESIGNER

2018

- Collaborated with a multidisciplinary team to create multiple interactive experiences in Virtual Reality for clients
- Shipped two gamified VR projects/experiences showcased at high profile events (CES '19 & Superbowl '19)
- Designed and scripted fun, gamified interactive elements and systems for the projects built using Unity and Unreal
- Structured progression and flow throughout the experiences for a balanced sense of challenge and accomplishment
